

Hamersley

- 1 The zoning of these commercial areas reflects their identification as Neighbourhood Centres. They play an important role in providing walkable access to daily and weekly household shopping needs, community facilities and a small range of other convenience services. Future development in these Neighbourhood Centres will be characterised by medium-rise buildings (approximately 4+ storeys) and medium density housing.
- 2 The zoning of these commercial areas reflects their identification as Local Centres which provide convenience and incidental needs for their local communities. Future development in these Local Centres will be characterised by low-rise buildings (approximately 3-6 storeys) often within a low density setting.
